

## CHAPTER 6

### PUBLIC PARTICIPATION, CONSULTATION, AND COORDINATION

#### 6.0 SUMMARY

An environmental impact statement (EIS) must be prepared when a federal government agency considers approving an action within its jurisdiction that may significantly impact the human environment. An EIS aids federal officials in making decisions by presenting information on the physical, biological, and social environment of a proposed project and its alternatives. As previously mentioned in Chapter 2, the first step in preparing an EIS is to determine the scope of the project, the range of action alternatives, and the impacts to be included in the document.

The Council on Environmental Quality (CEQ) regulations (40 CFR, Parts 1500-1508) require an early scoping process to determine the issues related to the proposed action and alternatives that the EIS should address. The purpose of the scoping process is to identify important issues, concerns, and potential impacts that require analysis in the EIS and to eliminate insignificant issues and alternatives from detailed analysis.

The Cave Gulch-Bullfrog-Waltman Natural Gas Development project EIS was prepared by a third party contractor working under the direction of and in cooperation with the lead agency for the project, which is the Bureau of Land Management (BLM), Casper District Office and Platte River Resource Area (PRRA), Casper Wyoming.

#### 6.1 PUBLIC PARTICIPATION, CONSULTATION, AND COORDINATION

Public participation, consultation, and coordination have occurred throughout the planning process for this EIS through *Federal Register* notices, press releases, scoping meetings, individual contacts, and informal consultation. Contact dates and actions taken are summarized as follows. All of the following information is available for review at the Casper District Office.

February 21, 1996 An "Interested Party" letter was sent to persons on the mailing list. The letter notified people of the availability of the BLM's Wyoming's Reservoir Management Group's (WRMG) Cave Gulch-Bullfrog-Waltman EIS Area Preliminary Reservoir Analysis report.

March 19, 1996 A Notice of Intent (NOI) prepared by the BLM was published in the *Federal Register* announcing the decision to prepare the Cave Gulch-Bullfrog-Waltman EIS. The NOI also announced the beginning of the scoping process and gave notice of an open house and public scoping meeting. Additional information provided in the NOI conveyed BLM's intent to allow some specific development during preparation of the EIS as well as to collaborate with interested publics in developing criteria to evaluate the proposals.

March 21, 1996 BLM issued a statewide press release informing the public of the intent to prepare the Cave Gulch-Bullfrog-Waltman EIS. The press release announced a public meeting and the availability of the WRMG's report.

March 28, 1996 BLM personnel met with the Natrona County Commissioners, other elected county officials, and department managers to discuss the proposed action as well as participation by the county. Table 6-1 contains a list of the attendees.

## CHAPTER 6: PUBLIC PARTICIPATION, CONSULTATION, AND COORDINATION

April 3, 1996 BLM personnel met with representatives from the Natrona County Audubon Board to brief them on the proposed action and how they could participate in the NEPA process.

**Table 6-1. Attendees of March 28, 1966 Meeting.**

Name of Attendee	Affiliation
James Anderson	City-County Health Department
Stewart Anderson	Emergency Management/LEPC
Marion Bouzis	Natrona County Commissioner
Bill Brauer	Natrona County Commissioner
Jon Campbell	Natrona County Commissioner
Tom Curren	Natrona County Planner
Susan DeWitt	Natrona County Assessor
Dave Dovola	Natrona County Sheriff
Eric Easton	Natrona County District Attorney
Swede Erickson	Natrona County Commissioner
Bill Harden	Deputy District County Attorney
Dennis Obert	Natrona County Fire Protection District
Donna Obert	Natrona County Commissioner
Ed Rate	Natrona County Planning Commission
Dennis Royal	Natrona County Human Resources
Jim Sullivan	Natrona County Road and Bridge
Gary Widup	Natrona County Treasurer
Clyde Young	Natrona County Fire District

April 9, 1996 BLM personnel met with the Wyoming Governor's department representatives to brief them on the proposed action. Table 6-2 contains a list of attendees.

April 9, 1996 BLM personnel met with the U.S. Fish and Wildlife Service in Cheyenne, Wyoming to brief them on the proposed action.

April 12, 1996 BLM issued a statewide press release informing the public of a public meeting and open house scheduled for April 17, 1996.

April 16, 1997 BLM personnel, at the invitation of the Natrona County Commissioners, briefed Natrona County School District personnel on the proposed action.

**Table 6-2. Attendees of April 9, 1996 Governor's Staff Meeting.**

Name of Attendee	Affiliation
Don Christianson	Wyoming Department of Agriculture
Tom Collins	Wyoming Game and Fish Department
Gary Glass	Wyoming Geological Survey
Dennis Hemmer	Wyoming Department of Environmental Quality
Paul Kruse	Wyoming Federal Land Policy Office
Pat Neary	Science, Technology, & Energy Authority
Grant Stumbough	Governor Geringer's Office

April 17, 1996 The joint public meeting and open house was attended by 248 persons; of that total, 30 persons gave public statements. A slide presentation on the existing and proposed development was given by BLM. Copies of the draft criteria for evaluating development proposals during preparation of the EIS and the BLM's WRMG "Cave Gulch-Bullfrog-Waltman EIS Area

## CHAPTER 6: PUBLIC PARTICIPATION, CONSULTATION, AND COORDINATION

Preliminary Reservoir Analysis" report dated February 20, 1996 were made available for public review and comment. The public was informed that a collaborative approach would be applied by the BLM in approving interim development during preparation of the EIS. The public was also told that the comment period and official scoping on the draft criteria and the RMG's draft report ended May 17, 1996. Attendees were added to the project mailing list. A comprehensive mailing list, as of January 29, 1997, is shown in Sections 6.1.1 through 6.1.5 of this Chapter.

April 22, 1996 BLM personnel met with Jennifer Head (Barrett Resources) and Robin Smith (Chevron), designated spokespersons for industry. At that meeting the following were identified as "stakeholders": US Fish and Wildlife Service, Wyoming Game and Fish Department, Natrona County Commissioners, Natrona County Conservation District, Wyoming Science, Technology, and Energy Authority (WSTEA), State of Wyoming, operators, pipeline companies, Wyoming Outdoor Council, Murie Audubon Society, and wildlife biologists.

April 26, 1996 Platte River Resource Area Wildlife Biologist Willie Fitzgerald gave a slide presentation to the Murie Audubon Society in Casper and was also interviewed by KTWQ Television.

April 30, 1996 A work session was held between BLM, industry representatives, and special interest groups who were identified as stakeholders to discuss the criteria and interim development. Although specific stakeholders were identified to participate in this and other work sessions, no one, including the media, was denied the opportunity to attend or participate in the discussions. Table 6-3 contains a list of the stakeholders who attended either all or one of the work sessions.

May 8, 1996 Another work session was held between BLM personnel and stakeholders to discuss the screening criteria that would be used to evaluate proposals during preparation of the EIS.

May 15, 1996 BLM personnel led a field tour of the area. Industry personnel also participated.

May 16, 1996 A biologists' field working session was conducted for screening interim development proposals with biologists from BLM, industry, US Fish and Wildlife Service, and the EIS contractor.

May 29, 1996 A final work session was held between BLM personnel and stakeholders where an environmental assessment on the interim proposals was reviewed, and the BLM disclosed that interim development could be approved allowing the development of 14 new wells and associated facilities and pipelines while preparing the EIS. The Decision Record for that development was signed June 14, 1996.

June 14, 1996 BLM issued a press release informing the public of an open house scheduled for June 20 to discuss the development of federal oil and gas leases in the Cooper Reservoir unit.

June 20, 1996 An open house was held to discuss development of federal oil and gas leases in the Cooper Reservoir unit during preparation of the Cooper Reservoir field development EA. Completion of the EA is concurrent with completion of this EIS because the Cooper Reservoir unit is located within the cumulative impacts area of analysis for wildlife habitat for this EIS. The open house was attended by 32 persons. (Copies of the decision record (dated June 14, 1996) for

## CHAPTER 6: PUBLIC PARTICIPATION, CONSULTATION, AND COORDINATION

federal oil and gas leases in the Cave Gulch-Waltman-Bullfrog area during the preparation of the EIS as well as BLM's criteria for evaluating development were made available.)

Peggy Price	Natrona County Conservation District
Glenda Stark	Wyoming Legislator
Mark Stotts	US Fish and Wildlife Service
Beecher Ed Strube	Natrona County Conservation District
Gary Widup	Natrona County Treasurer

June 27, 1996 The BLM assisted in educating the public by giving a tour of the area as participants in the Wyoming Geological Association's tour.

## CHAPTER 6: PUBLIC PARTICIPATION, CONSULTATION, AND COORDINATION

July 13, 1996 The BLM again assisted in educating the public by giving a tour of the Cave Gulch-Bullfrog-Waltman project area and other public lands co-sponsored by the Wyoming Outdoor Council and the Audubon Council of Wyoming in response to the Council's request for assistance in one of their annual educational tours.

August 13, 1996 A letter was sent to the stakeholders informing them of Chevron's correlative rights issue. Copies of the decision process were made available to them.

August 27, 1996 An open house was held to review and comment on BLM's proposed decision to allow the Chevron well 43 to be drilled in exchange for one Chevron well that was included in the June 14, 1996 interim development package Decision Record. Attendees were provided with copies of the evaluation of alternatives used to resolve Chevron's correlative rights issue, and their comments were considered before a final decision was made.

August 30, 1996 A Decision Record based on the June 14, 1996 environmental assessment was signed regarding Chevron's correlative rights issue and the approval of well 43. Copies of the Decision Record were provided upon request.

September 10, 1996 Platte River Resource Area Wildlife Biologist Willie Fitzgerald gave a slide presentation to the Wyoming Association of Professional Landmen in Casper.

December 16, 1996 An update on the Cave Gulch-Bullfrog-Waltman EIS was mailed to nearly 300 individuals, companies, and special interest groups. The update identified the proposed action and alternatives, the EIS schedule, and the issues and concerns that were raised by the public and considered in the analyses.

The following is a comprehensive mailing list compiled through January 29, 1997

### **6.1.1 Government Offices**

Arapahoe Traditional Elder, Francis Brown  
Big Horn County Commissioners  
Campbell County Commissioner  
Crow Tribal Council  
East Shoshone Traditional Elder  
Federal Energy Regulatory Commission, Larry Sauter  
Hot Springs County Commissioners  
Mayor, City of Casper  
Natrona County Treasurer  
Natrona County Weed & Pest Control District  
Natrona County Planning & Zoning Board  
Natrona County Assessor, Susan Dewitt  
Natrona County Commissioner, Donna Obert  
Natrona County Commissioner, Chairman  
Natrona County Conservation District  
Natrona County Deputy District Attorney, Bill Harden  
Natrona County Planning Department  
Natrona County Coroner's Office  
Natrona County Commissioner, Chairman  
Natrona County Education Association  
Natrona County Health Department  
Natrona County Human Services Commission  
Natrona County Public Library  
Natrona County Roads, Bridges, Parks Department  
Natrona County School District #1

## CHAPTER 6: PUBLIC PARTICIPATION, CONSULTATION, AND COORDINATION

### 6.2 LIST OF PREPARERS

The following tables identify the core BLM IDT (Table 6-4) and the consultant IDT (Table 6-5) that were principally involved with preparing this EIS.

**Table 6-4. List of BLM Interdisciplinary Reviewers.**

Name	Title
<b>BUREAU OF LAND MANAGEMENT</b>	
<b>Casper District</b>	
Kate Padilla	Project Lead, Resource Advisor
Laurie Bryant	Paleontologist
Roger Miller	Geologist
Jeff Hunt	Petroleum Engineer (Reservoir Management Group)
Mike Brogan	Hydrologist
Joe Meyer	Soil Scientist
Glen Nebeker	Resource Advisor
<b>Platte River Resource Area</b>	
Mike Phillips	Rangeland Management Specialist
Linda Slone	Environmental Protection Specialist
Chris Arthur	Archeologist
Don Whyde	Assistant Area Manager
Rod Sanders	Outdoor Recreation Planner
Willie Fitzgerald	Wildlife Biologist
Celia Skillman	Realty Specialist
John Menghini	Petroleum Engineer
<b>Wyoming State Office</b>	
Jack Pederson	Economist
Tom Enright	Natural Resource Specialist
Tom Lahti	Landscape Architect
Richard Schuler	Physical Scientist
Scott Archer	Air Quality Analyst

## CHAPTER 6: PUBLIC PARTICIPATION, CONSULTATION, AND COORDINATION

**Table 6-5. List of Consultant Interdisciplinary Team EIS Preparers.**

Principal Interdisciplinary Team		
Name	Affiliation	Responsibility
Gary Holsan	Gary Holsan Environmental Planning	Interdisciplinary Team Leader, Project Manager
Oliver John Grah	ECOTONE Environmental Consulting, Inc.	Soils, Water Resources, Vegetation and Wetlands, Special Status Plants, Reclamation
Larry Hayden-Wing	Hayden-Wing Associates	Wildlife, Special Status Animals, Document Production
